

EVERY BEER DESERVES TO BE LOVED, NO MATTER THE BODY TYPE.

We realize that not everyone may be as well-versed in the fine art of beer selection, so we thought we would lend a helping hand.

Now that you've made your selection, ask your server or bartender for some menu recommendations to compliment your drink.

The information listed here is a generalization of beer and beer styles. Since each beer has its own unique qualities and characteristics, it is intended to be a loose guideline to aid in your beverage decision making and by no means should be taken as the end all, be all. We welcome any feedback on the above chart and ask that all comments be submitted in writing and deposited in the round receptacle on the floor by the hostess stand. You must be over 21 to drink. Please drink responsibly. Thank you.
